SAFETY AND OCCUPATIONAL HEALTH

Safety, health, and quality in the workplace - From personal protective equipment to fire and explosion prevention to administering first aid, around the world there are countless laws and regulations governing occupational safety that apply to all possible hazards and situations. Occupational safety is one of our top priorities. At SKE, all employees are heavily involved in managing, implementing, and evaluating occupational safety policies. Regardless of whether in the office, on the jobsite, or in our private lives, SKE's safety goal for our employees is ZERO ACCIDENTS.
