

# SOCIAL RESPONSIBILITY

SKE's experience and expertise is followed by highest standards of certified quality management for all locations. We always rely on dynamic forms of management accounting and quality management. Continuous improvement in measurable steps of evaluation is our approach to quality control and occupational safety. Our range of quality management measures include regular audits as well as our own award-winning training programs that we use to continuously enhance the qualifications of our teams and specialists – measurable, verifiable, and always available to our clients. Furthermore, SKE is certified by the DQS (German Association for the Certification of Management Systems) to implement our management systems for quality management, for occupational safety, environmental management, and energy management system. And the "Leadership in Energy and Environmental Design (LEED)" certificate is also held in our group.
